

INTERNSHIP DESCRIPTION FORM

➤ Agency: Platte County Health Department, 212 Marshall Road, Platte City, MO 64079
(Satellite location: 1201 East Street, Parkville, MO 64152)

➤ Department name: Platte County Health Department

➤ Overview of the program:

The Platte County Health Department provides public services through its two clinics, a family health care clinic and a walk-in clinic. A separate division runs the federal Special Supplemental Nutritional Program for Women, Infants, and Children (WIC). In addition to medical and nutritional provisions, the department ensures consumer protection through health inspections, food safety classes, and engaging in emergency preparedness and epidemiology. Finally, health education and community events increase community health and public awareness.

➤ Overview of the internship:

The Intern will work on the development of a Community Health Improvement Plan. The Intern will assist the Health Education Team in preparing for the Back to School Fair held in late July as well as other projects. The Intern will assist the Environmental Health Team in developing and implementing projects. The Intern will be involved in other projects throughout the agency as needed.
